

## DASGIP – We know bioprocessing

---

an Eppendorf  
Company

DASGIP has been an industry-leading supplier of benchtop bioreactor solutions for the biotech, pharmaceutical and chemical industries as well as academia and research institutions, since 1991.

Our Parallel Bioreactor Systems for the cultivation of microbial, plant, animal and human cells utilize industry-standard benchtop glass and single-use bioreactors. DASGIP's best-in-class configurable control systems and state-of-the-art bioprocess analyzers deliver unparalleled functionality coupled with user-friendly design for optimal bioprocessing. Our proven solutions for interconnectivity to 3<sup>rd</sup> party bioprocess analyzers, supervisory control systems and DoE tools, combined with our best-in-class control systems, enable migration strategies for optimization of legacy benchtop bioreactor equipment. The outstanding DASGIP bioprocess solutions support QbD-driven process development.

DASGIP is headquartered in Juelich (Germany) and has operations throughout Europe, North America and Asia. In January 2012, DASGIP was acquired by Eppendorf AG, premium manufacturers of liquid, sample and cell handling products and expert partners in life science laboratories. DASGIP's high quality products complement Eppendorf's offerings in its customer orientation, performance and reliability.
